  LocalStorage, Email Verification, Responsive Design, Component-Based Architecture

LANGUAGE

- English (Fluent)

PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology graduate and self-driven Web Developer with hands-on experience building dynamic, user-centric applications using modern JavaScript frameworks and backend technologies. Strong knowledge of the MERN stack, REST APIs, and responsive UI frameworks like TailwindCSS and DaisyUI. Currently freelancing as a web developer, delivering real-world solutions with clean code, scalable architecture, and pixel-perfect designs. Background in virtual assistance and customer support gives me an edge in understanding user needs and translating them into functional web apps.

WORK EXPERIENCE

Freelance Web Developer
Remote | 2024 – Present

- Developing custom web apps for small businesses and startups
- Building responsive frontend interfaces and secure backend APIs
- Communicating with clients to gather requirements and deliver clean, functional UIs

Virtual Assistant / Customer Support Representative
Freelance & Remote Roles | 2021 – 2024

- Provided tech and product support for SaaS companies and online platforms
- Documented procedures, trained users, and resolved issues quickly
- Built and maintained spreadsheets, CRM dashboards, and basic automation

Learning Integration Specialist
DIWA Learning Systems Inc. | 2018 – 2021

- Supported the rollout of learning platforms and digital tools in educational settings
- Coordinated with dev teams to test platforms and report bugs and UI issues
- Created user documentation, video tutorials, and conducted product training
- Served as the bridge between technical teams and non-technical end-users, enhancing system adoption

EDUCATION

Bachelor of Science in Information Technology
STI College, Philippines
Graduated: 2018
